

## Shipping and Handling

It is my goal to ship your purchased item(s) within 24 hours once payment has been verified as deposited. All items are shipped using **Priority Mail** with the **US Postal Service**, which means you should receive your purchased piece within **1-3 business days**. All items shipped using Priority Mail are both **insured** and **tracked** to ensure your purchase comes to you safe and sound. The cost of Priority Mail shipping is automatically calculated during the final Purchase Checkout step and is based on the weight of the item purchased. The weight of each product is noted in the product "Full Details" section. Below is the Weight Range table that is used to calculate shipping cost.
